- Property is move-in ready
- Final walk-through completed

Post-Construction Cleaning Tips

- ✓ Hire Professionals: Post-construction cleaning is intensive. Professional cleaners have the right equipment and experience.
- ✓ Timing: Schedule cleaning after all construction is complete, but before final inspections and handover.
- ✓ Safety: Ensure the property is safe before cleaning begins (no exposed hazards, loose debris, etc.).
- ✓ Quality Products: Use commercial-grade cleaning products designed for post-construction cleaning.
- ✓ Documentation: Take photos/videos of the completed clean for your records.
